Technical Resources and Course Web Site for Data and Computer Communications, Sixth Edition by William Stallings Winner of the 2000 award for long-term excellence in a Computer Science textbook, awarded by the Text and Academic Authors Association, Inc.

Data and Computer Communications, Sixth Edition

A computer network is a digital telecommunications network which allows nodes to share resources. In computer networks, computing devices exchange data with each other using connections between nodes. These data links are established over cable media such as wires or optic cables, or wireless media such as Wi-Fi.. Network computer devices that originate, route and terminate the data are called ...

Who Files What? All facilities-based broadband providers are required to file data with the FCC twice a year (Form 477) on where they offer Internet access service at speeds exceeding 200 kbps in at least one direction. Fixed providers file lists of census blocks in which they can or do offer service to at least one location, with additional information about the service.*

Fixed Broadband Deployment Data from FCC Form 477

Change Location Here is a list of location information in each country/region for the Fujitsu Group. You can select location and contact information by country/region from the alphabetical index.

Fujitsu United States - Fujitsu Global

Vertiv is a global leader in designing, building and servicing critical infrastructure that enables vital applications for data centers, communication networks and commercial and industrial facilities.
