T. Ritchey: General Morphological Analysis \_\_\_\_\_ 2 This article will begin with a discussion of some of the methodological problems confronting

### **General Morphological Analysis**

Description. Dimensional modeling always uses the concepts of facts (measures), and dimensions (context). Facts are typically (but not always) numeric values that can be aggregated, and dimensions are groups of hierarchies and descriptors that define the facts.

### **Dimensional modeling - Wikipedia**

In personality pathology, dimensional models of personality disorders (also known as the dimensional approach to personality disorders, dimensional classification, and dimensional assessments) conceptualize personality disorders as quantitatively rather than qualitatively different from normal personality. They consist of extreme, maladaptive levels of certain personality characteristics ...
