Defining the term 'energy transition' An 'energy transition' designates a significant change for an energy system that could be related to one or a combination of system structure, scale, economics, and energy policy. An 'energy transition' is usefully defined as a change in the state of an energy system as opposed to a change in an individual energy technology or fuel source.

## **Energy transition - Wikipedia**

The European Union has imposed restrictions on cooperation with Iran in foreign trade, financial services, energy sectors and technologies, and banned the provision of insurance and reinsurance by insurers in member states to Iran and Iranian-owned companies. On 23 January 2012, the EU agreed to an oil embargo on Iran, effective from July, and to freeze the assets of Iran's central bank.
