Processability theory is a theory and a model of second language acquisition developed by Manfred Pienemann that touches the linguistic structures that surface in the learning of a second language. The theory has been used as a framework by several scientists from Europe and Australia. Processability theory is part of the cognitive approach to second language acquisition that attempts to ...

Human multitasking is an apparent human ability to perform more than one task, or activity, at the same time. An example of multitasking is taking phone calls while typing an email and reading a book. Multitasking can result in time wasted due to human context switching and apparently causing more errors due to insufficient attention. If one becomes proficient at two tasks it is possible to ...
