Probably the single most significant new feature added to Java EE 8 is the new Security API. The primary motivations for this new API were to simplify, standardize, and modernize the way security ...

### **Java EE 8's Security API: Overview - DZone Java**

Java is a general-purpose computer-programming language that is concurrent, class-based, object-oriented, and specifically designed to have as few implementation dependencies as possible. It is intended to let application developers "write once, run anywhere" (WORA), meaning that compiled Java code can run on all platforms that support Java without the need for recompilation.
