The term "personal injury claim" has become somewhat mainstream, especially in recent times. You've probably seen or heard the adverts on the television, the radio, the Internet and other advertising mediums, asking whether you have been injured in an accident and therefore require the services of a personal injury solicitor/ lawyer, but what exactly is a personal injury claim?

Introduction. The formal managerial hierarchy in modern organizations is as persistent as are calls for its replacement. The managerial hierarchy, which took hold in organizations in the late nineteenth and early twentieth centuries, has proved remarkably resistant to change. 1 Norms, mindsets, and cultural assumptions that pervade modern organizational life combine to reinforce an all but ...

Occupational science is a discipline in the social and behavioral sciences dedicated to the study of humans as "doers" or "occupational beings". As used here, the term "occupation" refers to the goal-directed activities that characterize daily human life as well as the characteristics and patterns of purposeful activity that occur over lifetimes as these affect health and well-being.

An experiment is a procedure carried out to support, refute, or validate a hypothesis. Experiments provide insight into cause-and-effect by demonstrating what outcome occurs when a particular factor is manipulated. Experiments vary greatly in goal and scale, but always rely on repeatable procedure and logical analysis of the results.
