What is Narrative Therapy? A Definition. Narrative therapy is a form of therapy that aims to separate the individual from the problem, allowing the individual to externalize their issues rather than internalize them. It relies on the individual's own skills and sense of purpose to guide them through difficult times (Narrative Therapy, 2017).

It breaks down to students understanding the practical application of math. If instead of asking students a question and a series of numbers that need to be solved, a teacher proposes a situation like "Sally has candy to share," students will understand the issue at hand is that she wants to divide them evenly and the solution provides a means to do that.
