social science that matters. 3. Policy makers and administrators should reward such praxis-oriented social
science, and they should penalise social science that has no social and practical import, including social
science which vainly tries to emulate natural science. This would be accountability that matters.

Social Science That Matters - groups.nceas.ucsb.edu

Do these ideas lay a basis for answering the basic question, why does social science matter? They do. It is
an unmistakable reality that we are embedded within social and political processes that have enormous
consequences for human wellbeing and human suffering. The complex interactions of human behavior
contribute both to some of the greatest ...
