Group Dynamics Definition. Group dynamics is a set of behavioural and psychological processes that occur within a social group or between groups. It refers to the "nature of groups, the laws of their development, and their interrelations with individuals, other groups, and larger institutions" (Cartwright and Zander, 1968).

Group Dynamics - What is it? Definition, Examples and More

An organization is defined as a collection of people who work together to achieve a wide variety of goals. Organizational behavior is defined as the actions and attitudes of people in organizations. The field of organizational behavior (OB) covers the body of knowledge derived from these actions and attitudes.
